Dear Josh,

... Forgive me for not acknowledging your helpful notes, suggestions, comments and references about parasitic diseases. I thought you would be interested in the response to your last letter, attached, since Jim Haworth is being very helpful. I am getting in touch with the National Institute for Allergy and Infectious Diseases to see what they can do about an over all picture of the kind of information that you are digging up for us.

I understand that you may be spending some time in Geneva in December, and the "TDR group" will look forward to your help then.

All the best,

Yours sincerely,

Howard C. Goodman, M.D.
